

## The Value of a Dishwasher....

On April 23rd, 2008 the Community Kitchen had an unfortunate incident with their dishwasher. The kitchen washes approximately 120 loads of dishes per day in an industrial, sterilizing dishwasher. Their dishwasher broke and with the help of Fred FM and the local community, almost \$12,000 was raised to purchase and install a new dishwasher for the Kitchen. The Fredericton Community Foundation was pleased to be a part of this fundraising event by donating \$3,000 toward their goal. Each year the Foundation responds whenever possible, to a variety of "emergency" situations. We are very pleased to be in a position to assist our community, not only during our three granting sessions per year, but also on an "as needed" basis. A special thank you to Fred FM and everyone who contributed in any way to make the Community
